

Containers/Secure Offices

Important - Read these instructions before using this equipment;

This equipment must only be used by competent persons. Not to be used by minors. Anyone with a temporary or permanent disability should seek expert advice before using.

These safety guidelines are intended as a guide for experienced operators. Detailed Operation Instructions relative to a specific make/model or equipment area available upon request from your nearest depot.

Do not use equipment whilst under the influence of drugs or alcohol. Seek medical advice if using prescribed medication before using.

Ensure the work area is clear and safe and that no-one is nearby or could distract you.

After use, store the equipment safely and securely away from minors.

Operation

The site for the Container should be firm and level.

If the container needs to be chocked up to make it level only use wooden or metal chocks. Never use bricks or building blocks as these can crumble and cause instability.

All Electrical connections should be made by a competent person.

Care must be taken when opening and closing doors in windy conditions to prevent limbs being trapped in doors.

While the Container is in use during the day it is advisable, where possible, to secure the doors in the open position in windy conditions.

NB. It is a criminal offence to smoke or allow smoking in these units.

If any fault arises do not operate the machine or try to rectify the fault. Contact your nearest depot for assistance.
